ASSET-BASED & SPECIALTY FINANCING

Asset-Based & Specialty Financing

These facilities put more weight on identified assets, contracts or receivables and how they convert to cash.

Common financing paths

01

Receivables and inventory lending

A borrowing base uses specified eligible assets and advance rates; aged or concentrated receivables may be excluded.

02

Factoring and purchase-order structures

These approaches may fund particular invoices or orders, with different customer-notification, collection and fee arrangements.

03

Equipment-backed facilities

An equipment lender may emphasize asset type, value and useful life alongside the business's repayment capacity.

The stated facility limit differs from available cash. Eligibility, advance rates, reserves, and concentrations affect proceeds.

Prepare for the conversation

- ☐ Recent financial statements and tax returns
- ☐ Amount, use of funds, and repayment plan
- ☐ Ownership, collateral, and existing debt

How Alliance helps

We review eligible assets and the collection cycle, estimate practical availability, and compare reporting demands and fees. We help you assess usable liquidity, rather than the facility limit alone.

Let's discuss your financing needs.

Tell us your goal, funding amount, and timing.
